SONEX™ Baffles

SONEX™ baffles are designed to hang from ceilings in large rooms such as gymnasiums and manufacturing areas. By absorbing sound energy, they reduce noise, echoes, and reverberation.

SONEX baffles are 2' x 4' with nylon webbing straps or metal eye hooks for easy hanging. They are available in three SONEX patterns and a variety of finishes. SONEXwet™ baffles are designed for use in high moisture environments such as pool areas or food processing plants. All SONEX baffles are FIBER-FREE and are available in willtec®, which is ASTM E84 Class 1 rated for low flammability.
